Tobacco contest slated

A contest is being held to select the most perfect bundles of tobacco in the flue-cured area. The annual contest is being sponsored by the Southern Flue-cured Tobacco Festival and takes the place of the Most-Perfect-Leaf Contest that has been held for the past two years in conjunction with the festival.

The Southern Flue-cured Tobacco Festival will be held this year in Greenville, North Carolina, from November 10 through 20.

The contest is open to entries from all the flue-cured tobacco states. The competition will be broken down into three categories -- the Lug (X) group - lower stalk; Cutter (c) group - middle stalk; and, Leaf (B) group - upper stalk. Each state will be allowed three entries per category. Plaques and cash awards will be awarded to the growers of the top three bundles in each category. Cash awards are $150 for first place, $100 for second place, and $50 for third place in each category.

All bundles entered in Virginia will be judged by personnel of the Virginia Department of Agriculture and Consumer Services and VPI & SU Extension Division in order to determine the state's three entries in each category.

Each grower who wishes to enter the contest may enter one bundle in each category. A bundle should consist of 15 leaves. Each contestant must have an interest in the tobacco crop from which the entry is selected. Each entry submitted should be labeled to show the name, address, and telephone number of the producer and the leaf group category in which the bundle is entered. Entries should be placed in a plastic bag or tightly wrapped with plastic in order to preserve the condition of the leaves.

It is the responsibility of each entrant to have his bundles in the possession of his county extension office by Friday, October 10, 1980.

If a grower has questions concerning the contest, he may call his local extension office of the Virginia Department of Agriculture at (804) 572-4568. A Virginia grower won the Most-Perfect-Leaf Contest in 1978 and 1979. Virginia growers are encouraged to participate in the Most-Perfect-Bundle Contest so that they can again prove that Virginia tobacco is the best.

Small SBA loan program helps auto dealers

Nearly 500 financially troubled auto dealers have been helped so far by a special U.S. Small Business Administration (SBA) loan program.

These dealers have received loans worth more than $100 million, SBA Administrator A. Vernon Weaver announced recently.

At the same time, Paul J. Colgan, Acting District Director, Richmond District, announced that two auto dealers have received loans in Richmond District. These loans are worth $280,000. Additionally three loan applications totalling $420,000 are being processed.

The assistance program was undertaken in accordance with President Carter's overall initiatives to help the auto industry during its temporary, but serious, downturn. The President announced his initiatives on July 8.

"We at SBA are gratified that we have been able to assist so may of the nation's automobile dealers," Weaver said. "These businessmen, many of whom manage long-established operations in their communities and who are leaders in their home towns, have faced recent difficulties mostly beyond their control.

"Our special loan guarantee program, with its reduced paperwork and minimum red tape, can help auto dealers stay in business during the adjustment period they and the auto industry face today."

"On July 24, SBA's nearly 100 field offices started giving special consideration to auto dealers seeking financial assistance. Instead of requiring special audited financial statements in loan applications, SBA permitted auto dealers to submit their regular financial statements to participating banks, where SBA guarantees up to 90 percent of the loan. Such loans are available to periods up to 10 years and carry bank market interest rates.

SBA also accepted a bank's judgement on dealer collateral.

In another move to help dealers, the Agency redefined its size standards to make more auto dealers eligible for this loan program."

As of September 5, Weaver reported that SBA had received 5,251 inquiries and 836 applications for dealer loans, totalling 100.8 million.

An additional 468 applications, totalling about $100 million, are pending and being processed at SBA offices and participating banks.

In a special loan program created for dealerships owned by minority persons, Weaver reported 36 loans approved, totalling $6.7 million.

"The fact that so many dealers have responded to this government-private sector initiative reflects dealer confidence that their current financial troubles are temporary and that the U.S. auto industry will recover from its temporary downturn," Weaver said.

SBA also is providing management assistance and counseling to troubled auto dealers and, when necessary, is considering loan payment moratoriums, loan payment reductions and deferment on presents loans made to dealers and auto industry suppliers.

Methodist women hear program on aging

Sharing with the United Methodist Women at their regular September meeting were Mrs. Sylvia H. Brooks, General Aging Services Coordinator, Central Virginia Commission on Aging; Mrs. Nancy Carwile, Fuel Services Coordinator, Appomattox Department of Social Services; Miss Mary Walker, Fuel Services, Appomattox Department of Social Services. The program focusing on fuel ministry included a brief introduction about the Central Virginia Commission on Aging and its programs. The CVCA quarterly newspaper, "The Senior Sum-up" was distributed and the need for locally funded fuel ministry programs was called to the attention of the group.

A slide program entitled, "Let It Snow" was presented re-emphasizing the need for fuel ministry.

Mrs. Brooks and Mrs. Carwile discussed with the group the Anti-Cold Homes Program in Appomattox County and the need for similar programs across the Commonwealth. Appomattox County received State acclaim for implementation of the Anti-Cold Homes Program last year.

The Anti-Cold Homes Community Committee, under the direction of Bill Britton, Emergency Coordinator for Appomattox County, will continue to make the program available to area residents who may be in need of assistance.
